COLLEGE PARK, MD, June 15, 2023 Three new game titles will have been released to stores around the world by Looney Labs at just over the halfway mark of 2023. On March 3rd, Looney Labs released a new Fluxx card game, Across America Fluxx. Following just two months later on May 5th, Around the World Fluxx was released with a Timeline mini-game and the ability for these two travel-themed Fluxx games to be combined for even more Bucket List travel fun! On July 7th, Fluxx: The Board Game Compact Edition joins the extensive Looney Labs game catalog as the newest edition of the constantly changing board game, first published 10 years ago, with a more compact box that is easier to store and travel with.

Fluxx fans can take these travel themed Fluxx games and the Compact Edition of Fluxx: The Board Game with them for summer travel plans without worrying about space in their suitcase.

“Summer is a great time for traveling and making memories with loved ones. The travel-themed Across America and Around the World Fluxx games bring the fun of travel with you in an easy to pack box. Belt out those Road Trip Music lyrics for extra card draws and keep the fun going after a fun day of sight-seeing or relaxing at the beach.” - Kristin Looney, CEO of Looney Labs

The new smaller box and improved peg boards make it the perfect game to take with you without compromising room in your luggage.” - Andy Looney, game designer and co-founder of Looney Labs

Looney Labs was founded in 1996 by Kristin and Andy Looney, a husband and wife team that gave up successful careers as aerospace engineers to pursue their hobby business full time with a Mission "to create fun." Looney Labs is now known for publishing award-winning card and board games that have that certain something that makes a game addictive, such as Fluxx.

In Fluxx, it all begins with one basic rule: draw one card, play one card. Then as cards are drawn and played from the deck, the rules of the game change, such as how many cards are drawn, played, or even how many cards you can hold at the end of your turn. As cards are played, Actions will be taken, New Rules will come into play, and the Goal of the game will be replaced while each player seeks to match the current Goal to become victorious!

Looney Labs also offers Looney Pyramids, the innovative pyramid-shaped gaming pieces useful for hundreds of different games, as well as Loonacy, a rapid fire game where players race to be the first to empty their hand by matching one of two images with the images on the open piles in front of them, and Chrononauts, where you are a Time Traveler with a Secret Mission, Secret Identity, and the very important job of Paradox Repair.
